Wisconsin Core Competencies for Family Support Professionals

Core Competencies for Family Support Professionals

Background

In 2004, the Wisconsin Child Abuse and Neglect Prevention Board collaborated with a variety of partners to author the Core Competencies in the Field of Family Support. They embarked upon this project with the following goals:

- Ensure high-quality family support services for families in Wisconsin
- Increase recognition of the professional experience, training, and education that parent educators, home visitors, and other family support professionals bring to their work
- Encourage high standards for quality training for professionals who work with families

Revision of Core Competencies

In 2018, the Prevention Board updated the Core Competencies, renamed the Core Competencies for Family Support Professionals. Research findings and innovations in practice led to new knowledge within the prevention and child development fields. In an effort to integrate this knowledge into the work of family support professionals, the following objectives were added to the original goals:

- Embedding a strengths-based approach toward working with families
- Acknowledging the research on Adverse Childhood Experiences¹ and the impact of trauma on child and family functioning
- Incorporating a racial equity perspective
- Integrating the Protective Factors Framework² as a means of supporting optimal child development, reducing the likelihood of child maltreatment, mitigating risk, and diminishing the probability of trauma

The Protective Factors Framework³ is an evidence-informed, strengths-based approach to child maltreatment prevention and family well-being promotion. It consists of the following five Protective Factors, identified by the Center for the Study of Social Policy as essential to the health of all families:

^{2,3} Harper Browne, C. (2014, September). The Strengthening Families Approach and Protective Factors Framework: Branching out and reaching deeper. Washington, DC: Center for the Study of Social Policy. <u>http://www.cssp.org/reform/strengtheningfamilies/2014/The-Strengthening-Families-Approach-and-Protective-Factors-Framework Branching-Out-and-Reaching-Deeper.pdf</u>

¹ Felitti VJ, Anda RF, Nordenbert D, Williamson DF, Spitz AM, Edwards V, Koss MP, Marks JS. *Relationship of childhood abuse and household dysfunction to many of the leading causes of death in adults: The Adverse Childhood Experiences (ACE) Study.* American Journal of Preventive Medicine 1998; 14:245-258.

- 1. <u>Parental Resilience</u>: Managing and growing through challenges that emerge in a family's life and buffering children from toxic stress
- 2. <u>Social Connections</u>: Reaching out to friends, family members, neighbors, and others in the community who may provide emotional support, give concrete assistance, and help solve problems
- 3. <u>Concrete Support in Times of Need</u>: Meeting basic economic needs like food, clothing, and housing, and the ability to access adequate services and supports to provide stability when a crisis occurs, such as domestic violence, mental illness, or substance abuse
- 4. <u>Knowledge of Parenting and Child Development</u>: Receiving accurate information about child development and effective strategies to see their children in a positive light and promote their healthy development
- 5. <u>Social and Emotional Development of Children</u>: Fostering a child's ability to interact positively with others, self-regulate their behavior, and communicate feelings appropriately

In the 13 years since Core Competencies were originally developed, a great deal of expansion occurred in identifying competencies within a variety of fields, including family support, infant mental health, early childhood education, parent education, family development, home visiting, and youth development. Consequently, the Prevention Board conducted a scan of core competencies from these fields to identify common and unique components and formats. Two models aligned well with our existing Core Competencies and newly identified objectives: The National Parenting Education Network's <u>Parenting Educators Competencies Resource Document</u> and the state of Oregon's <u>Core Knowledge and Skills for Oregon Parenting Educators</u>. These two models influenced both the content and the structure of the current Core Competencies.

The Prevention Board also convened an advisory group of Wisconsin professionals from the field of family support.⁴ Advisory group participants represented the areas of home visiting, parent education, early childhood, infant mental health, Community Response Program staff, and family resource centers. The advisory group met regularly over the course of a year to review and offer additions and changes to the Core Competencies at multiple points during the revision process.

⁴ Organizations represented on the Core Competencies Advisory Group: Child Abuse and Neglect Prevention Board, Children's Hospital of Wisconsin Community Services, Gundersen Health System, Lakeshore Community Action Program, Milwaukee Child Welfare Partnership, Supporting Families Together Association, The Parenting Network, The Parenting Place, and the Wisconsin Alliance for Infant Mental Health.

Audience for Core Competencies

The primary audience for the updated Core Competencies for Family Support Professionals includes two broad categories of family support professionals in Wisconsin: parent educators and family resource providers. Responsibilities of the parent educator focus on building parenting capacities including parenting skills, parent-child interaction, family functioning, and addressing child behavior and development. Parent educators are sometimes known as parent coaches or home visitors. Some of the specialized skills they may utilize include group facilitation skills, recruitment, program marketing, and volunteer management.

Family resource providers focus on connecting families to resources by establishing links and referrals to services. Generally, they interact with families on an individualized basis tailoring services to specific needs and goals. Other titles for family resource workers include family advocate, community response worker, community connector, family service coordinator, and home visitor. Specialized skills of family resource providers include connecting families directly to service providers, maintaining extensive community and interpersonal connections, and empowering families to seek and accept help.

Parent educator and family resource provider responsibilities are not necessarily mutually exclusive. Many family service professionals do work that combines aspects of both. However, the necessary skill sets for these positions do differ somewhat. Some of the Core Competencies in this document are more applicable to one category of job responsibility than another and some are relevant to both. Regardless of job description or level of responsibility, there are some common foundational principles for work with families and children. These principles should guide everyday activity and approaches to interacting with families:

- Understanding and utilizing a strengths-based approach toward families
- Acknowledging the importance of partnering with families, other providers, and community resources to model positive interactions and collaborative relationships for families
- Empowering families by helping them develop the skills and connections to advocate for themselves, and support families in learning to use limited resources most efficiently
- Developing cultural humility and sensitivity to bias, including an understanding of historical trauma, systemic racism, culture of poverty, and epigenetics
- Recognizing and addressing systemic barriers to accessing resources
- Understanding the role of Protective Factors for prevention and for building strong families
- Addressing families with sensitivity to minimize harm and to support healing, utilizing knowledge of Adverse Childhood Experiences and acknowledging the need for trauma-informed approaches

Application of Core Competencies

While it is important for professionals to demonstrate a broad range of expertise, it is widely recognized that no one individual is likely to attain every Core Competency in all content areas. In fact, competencies will have varying relevance and importance depending on the type of position and job responsibilities. Whether direct service provider, supervisor or other type of organizational leader, each professional should focus on the content areas that fit their role. It is also expected that professionals will continue to expand and develop their knowledge and skills over time.

The Core Competencies can help family support professionals to:

- Assess level of knowledge within each of the content areas, including strengths and gaps
- Guide professional development choices and support professionals in advocating for their professional development needs
- Maintain on ongoing record of knowledge and skill development and participation in educational opportunities
- Support résumé development by identifying skills and abilities to highlight

Supervisors and Leadership can use the Core Competencies to:

- Identify professional strengths of employees and areas for professional growth
- Guide professional development planning for employees
- Support development of job descriptions
- Structure performance evaluation
- Serve as a resource for interview questions

Program Level Standards of Quality

The Core Competencies for Family Support Professionals focus on supporting the growth and improvement for the individual employee or supervisor. To address the quality of a program or organization as a whole, the National Family Support Network's <u>Standards of Quality for Family</u> <u>Strengthening and Support</u> is an additional resource. These two resources complement one another to ensure that both the individual worker and the context within which they are working provide the highest quality, most effective services for families.

Structure of Core Competencies

The updated Core Competencies for Family Support Professionals remain divided into Direct Service Provider Core Competencies and Supervisor and Leadership Core Competencies. Direct Service Provider Core Competencies contain eight content areas. The Supervisor and Leadership Core Competencies consist of seven content areas.

Direct Service Provider Core Competencies

The Direct Service Provider Core Competencies describe the expertise needed to be successful in helping parents understand and support their children, improve their parenting skills, and reach their personal and family goals in the eight content areas:

- 1. Child and Lifespan Development
- 2. Dynamics of Family Relationships
- 3. Guidance and Nurturing Parenting Skills
- 4. Health and Safety
- 5. Diversity in Family Systems
- 6. Relationships Between Family, School, and Community
- 7. Family Support and Parent Education Principles, Research, Methods, and Approaches
- 8. Professional Practice and Self-Care

Supervisor and Leadership Core Competencies

Supervisors and leadership need to be well versed in the Core Competencies for direct service providers for their own professional growth and to support their supervisory work with others. However, there are seven additional content areas which describe the knowledge, skills, and attitudes essential to the role of supervisor of other family support professionals and other leadership roles within a family resource and support program.

- 1. Best Practices in the Field of Family Support
- 2. Program Planning, Monitoring, and Evaluation
- 3. Marketing and Outreach
- 4. Fund Development and Budget Management
- 5. Personnel and Staff Development and Supervision
- 6. Community Advocacy and Collaboration
- 7. Public Policy Advocacy and Involvement

Each content area of the Core Competencies is further divided into the categories of knowledge, skills, and attitudes. The knowledge section outlines the areas of learning and types of information within each content area that are important for understanding child development, for caregivers' parenting proficiency and for service providers to better understand the families they serve. The skills section of each content area focuses on how service providers utilize, apply and share the information from the knowledge section most effectively. The attitudes section acknowledges the impact of a professional's core beliefs and motivation on how they approach each content area. The foundational beliefs and attitudes of an individual employee need to be a good fit with the mission and approach of the organization and the needs of the families it serves.

How to Use the Core Competencies for Family Support Professionals to Support Professional Growth

In order to most effectively utilize this resource to guide your professional growth, you will need to familiarize yourself with the Core Competencies. Select an interval of time and commit to reviewing the Core Competencies, assessing your progress and identifying emerging needs and interests. You can plan to reassess your overall progress quarterly, twice a year or even annually as long as you follow through in a way that is helpful to you. In between, be sure to maintain and ongoing record of learning opportunities in which you have participated. There are tools below that are designed to help you to review the Core Competencies, suggest professional development opportunities that highlight different aspects of that competency, reflect and assess your own progress and maintain a record of what you have done. Supervisors and leadership should model the same process for their own professional growth as well as utilizing the core competencies and related tools to guide their staff.

Supplemental Resources

The supplemental resources listed below are designed to be used in tandem with the Core Competencies and to support the user in determining skill level and creating a personal record that can be maintained over time and across the development of one's career. The tools are tailored for direct service staff and for supervisors and leadership. The **Staff Self-Reflection Checklists** are tools to assist the individual professional in assessing their knowledge and skills to identify their strengths and professional development needs. The **Employee Strengths and Needs Checklists** are designed to assist supervisors in assessing their employees knowledge and skills, which enables them to better communicate a staff member's areas of strength during supervision and to suggest professional development needs and opportunities that would benefit the staff member. The **Direct Service Provider and Supervisor and Leadership Tip Sheets** consist of the Core Competencies content areas and corresponding professional development trainings and resources for each content area. They also contain a crosswalk of training by content area and an individual professional development tracking tool.

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
1.1 THEORIES OF HUMAN GROWTH AND DEVELOPMENT AND THEIR APPLICATIONS	Attachment theories and early relational health
	Social learning theory: learning through observation, imitation and self-motivation
	Behavioral theories: learning through positive and negative reinforcement
	• Hierarchy of needs theory: for motivation to arise at the next level of need, an individual must satisfy each prior stage Basic needs must be satisfied before, and individual can attend to higher level needs.
	Bio-ecological theories: the influence of relationships and environmental contexts on child and family
	 Psychodynamic theories: events in childhood influence unconscious patterns of behavior and personality in adulthood
	Constructivist theories: learning is built upon prior knowledge by incorporating new information into preexisting understanding
	Racial and minority identity development theories
	 Cognitive learning theories: learning through self-reflection, questioning, trial and error and how positive feelings and self-confidence impact learning.
1.2 DEVELOPMENTAL RANGES, STAGES &	Developmental milestones
MILESTONES OF PRENATAL, INFANT, TODDLER, MIDDLE CHILDHOOD, ADOLESCENT & YOUNG	Developmentally appropriate challenging behaviors
ADULTHOOD	Tasks and sensitive periods
	Learning styles
	Physical development and health
	 Diet and physical activity needs
	 Energy and activity levels
	 Sleep needs
	 Normative crying patterns
	 Infant, toddler and adolescent brain development
	 Breastfeeding and/or formula feeding

Knowledge cont.		
CORE COMPETENCIES	SUB-COMPETENCIES	
1.2 CONT. DEVELOPMENTAL RANGES, STAGES & MILESTONES OF PRENATAL, INFANT, TODDLER, MIDDLE CHILDHOOD, ADOLESCENT	Social and emotional development and health	
	 Nurture and attachment 	
& YOUNG ADULTHOOD	 Infant mental health 	
	o Temperament	
	 Cultural identity development and pride 	
	 "Goodness of Fit" and the bi-directional nature of parent and child temperament 	
	o The Pyramid Model	
	Cognitive development	
	 Emergent literacy 	
	 Importance of play 	
	 Orientation to schooling 	
	Impact of stress on development	
	 Different types of stress and their impact across development 	
	 Relationship between Adverse Childhood Experiences, toxic stress, trauma and brain development 	
	 Impact on cognition and executive function and the unique impact at various developmental periods 	
	 Impacts on social and emotional development 	
	 Role and function of resilience 	

1.3 IMPACT OF DEVELOPMENT THROUGHOUT LIFESPAN AND HOW IT IMPACTS PARENTING	 Principles of adolescent and adult development How development and experience affect parenting Impact of parental attachment and parenting history Impact of Adverse Childhood Experiences and trauma history Different types of stress Understanding epigenetics Influence of bi-directional parent and child relationship Adolescent parents
1.4 IMPACT OF MEDIA & TECHNOLOGY	 Adolescent parents Influences on human growth and development Appropriate types of devices and amounts of screen time based on age and stage Appropriate content

Skills	
	Ability to engage parents in supporting children's attachment, development, and learning
	Engage and interact with children in developmentally appropriate ways
	Ability to identify children's and parents' strengths
	Demonstrate sensitivity to children's and parents' needs
	Cultivate self-awareness and understanding of bias
	Display cultural and linguistic responsiveness in relationships

Attitude	
	Believe that all children and parents have strengths and ability to learn
	Positive orientation toward and enjoyment of interaction with children and families
	Appreciate and value differences within family dynamics
	 Respect and support current relationships between children and parents as the starting point for family development
	Value creating positive, goal-oriented relationships with parents
	 Commit to all children, parents, and families reaching their potential and to the promotion of healthy parent-child and family relationships
	Acknowledge and examine personal bias

Content Area 2: Dynamics of Family Relationships

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
2.1 FAMILY INTERACTION	Family systems theories: understanding families as a unit where members influence one another's behavior
	 Gender, gender identity, and sexuality theories: understanding and influence of gender and sexuality on individuals, relationships, families and social context
	Role of Protective Factors in building family strength and resilience
	 Stress and coping theories: the balance or imbalance between stress placed on an individual and their ability to cope
	Appropriate and effective communication
	Understanding the impact of technology and media on family interaction
	Significance of and research related to family meals
2.2 FAMILY RELATIONSHIPS	Couple relationships
	 Principles of healthy couple relationships
	 Impact of parental relationships on child development, including pre-marital, marital, co- parenting, stepparent
	 Domestic violence
	 Impact of unhealthy couple relationships and domestic violence on children
	Parent-child relationships
	 Roles of mothers, fathers and other significant caregivers in healthy child development
	Understanding the influence and cultural norms of intergenerational relationships

Content Area 2: Dynamics of Family Relationships

Family structure
Single parenting
Number of children
Sibling relationships
Birth order
Family development theories/family life stages
Typical growth and development of family members
Family disruption and unexpected changes
Impact of intergenerational relationships on parenting and the family system
Common internal and contextual sources of family stress
Parental resilience and buffering children from toxic stress
Significance of parental self-care
 Role of Protective Factors in buffering family stress, preventing trauma, and promoting family resilience
Understanding the distinction between stress and trauma
Understanding the impact of trauma on families
Family routines
Family traditions
Quality family time and interactions
Children's extracurricular activities
Impact of religion, language, culture, ethnicity, race and immigration on families

Content Area 2: Dynamics of Family Relationships

Skills

SKIIIS	
	 Interact effectively with a variety of personality types, temperaments, and individual differences of both adults and children
	 Model appropriate effective communication strategies with and for families
	Teach and support healthy parent-child interactions
	Help parents identify needs and strategies to build resilience and practice self-care
	 Identify and support families in addressing stressors that negatively impact family interaction
	 Utilize the Protective Factors Framework to assist all families in assessing their family system and identifying areas of focus for positive family development
	Recognize signs of individual and family trauma
	 Incorporate trauma informed practice when engaging and responding to families who may have experienced various forms of trauma
	Demonstrate culturally and linguistically responsive interactions with families

Attitude	
	Appreciate differences in family composition and family dynamics
	Value self-awareness and seek understanding of personal bias
	Believe that all families have strengths
	Respect and support the existing relationships between children and families as the starting point for family development
	Believe that all families experience stress
	Believe that any parent, child, or family, regardless of status or composition, may have experienced trauma

Content Area 3: Guidance and Nurturing – Parenting Skills

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
3.1 PARENTING STYLE, STRATEGY, AND PRACTICE	Parenting styles and their impacts on children
	Immediate and long-term effectiveness of various parenting approaches and practices
	Knowledge of contemporary or colloquial trends in parenting practice
	The critical role of parents in supporting children's learning
	 Scaffolding of children's learning
	 Encouraging and supporting positive dispositions toward learning
	 Understanding learning styles, knowledge of interests, strengths, weaknesses, motivators, work habits
	 Moral development
	Influence of culture, race and ethnicity
	Influence of family history and childhood experience on parenting practice
3.2 NURTURING	Understanding attachment
	• Impact and importance of parental nurturing and supervision for infant mental health and the social and emotional development of children of all ages
	Parent-child attunement (serve and return)
	• Effective and appropriate ways parents' express warmth, love, and affection for their children within their cultural, racial and ethnic context
	Importance of parental understanding of child's unique characteristics

Content Area 3: Guidance and Nurturing – Parenting Skills

Knowledge cont.	
3.2 CONT. NURTURING	Significance of and strategies for making reparations and healing relationships
	 Impact of parental expectations, including age appropriate and culturally appropriate ways of communicating expectations
	Understanding the need for parents to buffer their children from toxic stress
3.3 GUIDANCE	Understanding the difference between discipline and punishment
	Understanding a wide variety of guidance techniques and approaches
	 Responsiveness
	 Limit setting
	 Goal setting
	 Role modeling
	 Structuring an environment
	 Dealing with anger and other emotions
	 Behavioral reinforcement
	 Characteristics of healthy and unhealthy discipline/punishment and their connection to the promotion of learning and self-regulation of behavior
	 Impacts of corporal punishment on child health and long-term development and its relationship to child maltreatment
	Emotional literacy and regulation
	Understanding bi-directional nature of parent and child emotions
	 Impact of parents' behavior and modeling on child behavior and character development
	Role of appropriate parental supervision
3.4 ADVOCACY	Understanding the importance of parents advocating for their children and family
	Advocacy skills and techniques for parents

Content Area 3: Guidance and Nurturing – Parenting Skills

Skills	
	Identify healthy and unhealthy attachment
	Teach and model strategies to help parents strengthen healthy attachment
	Identify healthy and unhealthy parenting styles and behavior
	• Teach and model best practice in parenting skills and behaviors, including warm, nurturing, and caring behaviors
	Communicate appropriate developmental expectations to parents
	Teach emotional regulation skills both for parents and for children
	Model guidance techniques for parents
	Facilitate intentional parenting skills
	Match parent programs to parents' needs
	Partner with parents and scaffold parents' learning
	Help parents build parental resilience
	Help parents identify self-care strategies to reduce stress

Attitude	
	Believe that there are a wide variety of healthy ways to parent
	 Accept cultural and personal variance in effective and appropriate ways to express warmth, love, and affection
	Believe in universal need for parenting knowledge and support
	Believe in intrinsic motivation for parenting
	Believe that parents have the power to make the best decisions for their family
	 Respect the rights and responsibilities of parents to make decisions about family values and parenting practices
	View critical thinking as an essential requirement for parent education
	Understand that all parents need strategies beyond those learned from their own parents

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
4.1 ESSENTIAL COMPONENTS OF SAFE AND HEALTHY PHYSICAL ENVIRONMENTS	Types and sources of concrete supports necessary to meet family needs
	Connections to physical health care providers
	Strategies and techniques to increase safety of home, vehicle, and outdoor spaces (e.g. car seat,
	safe sleep, child proofing, gun safety, water safety, helmets)
	 Components of safe physical environment for all ages and stages
	 State and federal laws pertaining to the safety of children
	 Appropriate supervision based on culture and developmental stage
	Ways of teaching children to keep themselves physically safe
	Standards and selection of safe and healthy childcare
4.2 ESSENTIAL COMPONENTS OF SAFE AND	Components of safe emotional environment for all ages and developmental stages
HEALTHY EMOTIONAL ENVIRONMENTS	Connections to mental and behavioral health care providers
	Impact of harsh discipline, domestic violence, shaming, or inappropriate, denigrating, threatening
	language on the emotional health and safety of children
	Understanding of normative social development and social interaction between children
	 Appropriate supervision based on culture and developmental stage
	Characteristics of bullying and bullying prevention
	Ways of teaching children to keep themselves emotionally safe
	Parental buffering of children to prevent or mitigate toxic stress
	Selection of developmentally supportive, nurturing, and responsive childcare providers
	Understanding risks and impacts of depression on parents, children and other family members
4.3 CHILD ABUSE AND NEGLECT	Types of child maltreatment, characteristics, and recognition
	Knowledge of state statutes, mandated reporter laws/requirements, and procedures for reporting
	child abuse and neglect

Knowledge cont.	
4.3 CONT. CHILD ABUSE AND NEGLECT	Warning signs of child maltreatment
	Abusive head trauma
	 Relationship between normative crying and abusive head trauma
	 Relationship between sentinel injuries and child maltreatment
	 Ability to identify sentinel injuries
	Sexual abuse prevention
	 Grooming behaviors and signs
	 Understanding and sharing prevention information with parents
	 Age-appropriate ways to teach children sexual abuse prevention
	Characteristics and needs of parents, children, and families at risk for abuse and/or neglect
	Impact of family planning (birth spacing) on child abuse and neglect prevention and family
	functioning
4.4 HEALTH NEEDS	Healthy diet, nutrition, breastfeeding, and physical activity needs for children and parents
	Sleep needs
	Sleep safety
	The role of preventative physical and mental health care
	Impacts of abuse, neglect, and family violence on family members
	Understanding of Adverse Childhood Experiences
	Impact of Adverse Childhood Experiences on parenting
	Signs of domestic violence
	Signs of alcohol and drug abuse, both prescription and illicit, and other compulsive behaviors

Knowledge cont.	
4.4. CONT. HEALTH NEEDS	Impacts of alcohol and drug abuse and other compulsive behaviors on parents, children, and families
	 Signs and symptoms of mental illness in family members (including children)
	Prochaska's Stages of Change theory
4.5 HEALTH AND COMMUNITY	Social Determinants of Health and their impact on individuals and families
	Health equity
	The role of primary prevention of child maltreatment

Skills	
	Support and assist families in identifying and securing concrete supports
	Build awareness of resources, prerequisites for service, and the referral process
	 Identify signs of domestic violence and community resources for victims
	Identify all forms of child maltreatment
	 Possess skills for talking to families about health and safety issues
	Understand and identify the impacts of various types of family violence on different family members
	 Identify and promote formal and informal professional connections that help families obtain concrete supports
	Facilitate family help seeking
	Maintain networks of physical, mental, and behavioral health care providers
	Connect families to services, support help seeking behavior, and understand barriers to access
	Identify signs of depression and mental illness
	Recognize and address systemic barriers

Attitude	
	 Believe that any parent, child, or family, regardless of status or composition, may have experienced or be a source of child maltreatment
	 Believe that help seeking behavior is a strength and not a weakness
	Acknowledge systemic barriers to family well-being

Content Area 5: Diversity in Family Systems

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
5.1 SPECIFIC NEEDS AND CHARACTERISTICS OF DIVERSE FAMILY SYSTEMS	Factors that contribute to the diversity and complexity of family systems
	 Cultural, racial, ethnic, religious, and linguistic background
	 Age, gender, sexual orientation, and marital status of parents
	 Foster care, adoption, and relative caregiving
	 Blended families and step-parenthood
	 Socioeconomic status
	 Physical, emotional, or developmental disabilities of children or parents
	 Geographic isolation
	 Homeless or transient families
	 Migrant, immigrant, or refugee families
	 Families impacted by addiction or incarceration
	 Periods of family disruption or transition
5.2 CULTURALLY, ETHNICALLY, AND RACIALLY RESPONSIVE SERVICES	• Understanding impact of culture, socioeconomic status, community context, and language on child- rearing practices and relationships in the home
	• Characteristics of services and service delivery that are respectful of and relevant to the beliefs, family history and experiences, values, practices, cultural, and linguistic needs of individual families and groups
5.3 EFFECTS OF RACISM AND DISCRIMINATION	Understanding of multi-generational impact of family functioning and signs of historical trauma
ON FAMILIES AND CHILD REARING	Awareness of ethnic-racial socialization practices
	 Social Ecology of Racism and Anti-racism
	Awareness of systemic and racial barriers to achievement and economic well-being

Content Area 5: Diversity in Family Systems

Skills

Skills	
	 Develop and implement culturally responsive strategies to engage and strengthen families
	 Support families in identifying their own needs and positive, culturally appropriate strategies
	 Teach and support families in building internal family traditions, customs and culture
	 Promote equity and address barriers that impact family access to and comfort with services and education, such as conscious and unconscious bias, economic status, educational level, stereotyping, and racism
	 Practice self-reflection and examination to discover personal views or emotional triggers which have the potential to impede relationships and effective work with families
	Foster inclusion

Attitude	
	Respect and appreciate diversity in families
	 Strive for non-judgmental approach to working with families, especially those whose background or current circumstances are different from one's own
	 Believe that <i>all</i> families can benefit from and should have access to parenting education and skill building opportunities
	Acknowledge systemic barriers to family well-being

Content Area 6: Relationships between Family, School, and Community

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
6.1 COMMUNITY AND SOCIETAL CONTEXTS OF	The roles of the community in nurturing, supporting, and protecting families
FAMILY	How communities can strengthen family Protective Factors
6.2 INTERACTION BETWEEN FAMILY & COMMUNITY	• Understanding human interaction in the context of various environmental systems and their influence on development, including social-ecological systems theories and social justice theories
6.3 COMMUNITY AND SOCIETAL INFLUENCE ON FAMILIES	Impact of community influences on family functioning
	• Knowledge of local, state, and federal laws and policies impacting families, including eligibility, requirements, criteria, and barriers
	 Influence of discriminatory practices and the unequal application of laws
	Distribution of social capital
	Sources of environmental, community, or societal trauma
6.4 PARENT AND FAMILY INFLUENCE ON	Effects of families' spiritual and cultural affiliations on the wider community
COMMUNITY AND SCHOOL	Impact of parent or family trauma on social, community, and institutional interaction
	Importance of parental involvement in community and school for building Protective Factors
	Critical role of parents as primary teachers
	 Value of parent and family involvement in learning
	Sources of resources and referral related to early intervention and special education services
	 Family practices that support early learning and preparation for school

Content Area 6: Relationships between Family, School, and Community

Skills

Skills	
•	Advocate within the community on behalf of children and families
•	Connect families to resources
	 Networking skills
	 Knowledge of community resources
	 Connections within community
•	Build collaborative community partnership and continuum of care for family support services and parent education initiatives
•	Help families identify and access community resources
	 Implement the "warm handoff"
	 Identify and address barriers
	 Normalize family help seeking
	 Support parents in advocating for themselves and their children
•	Help families build social connections
•	Help families understand the importance of quality childcare and find resources to obtain quality providers
•	Support parents in preparing children for school through at-home early learning activities that promote academic success
•	Encourage and support parents to be active members of community and school through participation, volunteerism, and advocacy

Attitude	
	 Appreciate the value and importance of parents' and children's active participation in community and school and the barriers to active participation
	 Value the importance of schools, family service organizations, childcare, faith-based institutions, healthcare providers, and community in strengthening Protective Factors for children and families
	Value connection with service providers and community resources to provide the best support for families
	 Believe in the collective roles of families, childcare providers, schools, and communities in educating children

Content Area 7: Family Support and Parenting Education: Principles, Research, Methods, and Approaches

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
7.1 PRINCIPLES FOR PRACTICE	Strengths-based, family partnership approach to family support work
	Protective Factors Framework and how Protective Factors strengthen families
	Conflict resolution strategies
7.2 IDENTIFYING AND UNDERSTANDING	Distinctions between prevention, early intervention, and treatment approaches
PROGRAMMING APPROACHES AND RESEARCH	• Level of research evidence for effectiveness of parent education and family support programming and approaches
	Understanding the distinction between a program model and a curriculum
	Identifying and matching of program characteristics and participant needs
	Program or practice fidelity
	 Use of evaluation to demonstrate outcomes and assess effectiveness of programming and approaches
	 Awareness of common, effective evaluation methods, strategies, and tools in the field of parent education and family support
	• Awareness of new research, information, approaches, and programming related to child development, parenting, parent education, family functioning, health and safety, family diversity, and professional practice
7.3 METHODS OF IMPLEMENTATION	Effective and creative methods for outreach and retention of program participants
	Appropriate use of technology to facilitate services
	Principles of adult learning and teaching methods
	Group facilitation strategies
	Strategies for fostering interaction and inclusion
	Communication and listening strategies
	• Educational methodologies and facilitation strategies, including large and small group, role play, transitions, modeling, and group discussion and management

Content Area 7: Family Support and Parenting Education: Principles, Research, Methods, and Approaches

Skills	
	Utilize a strengths-based family empowerment approach to family support work
	 Incorporate the Protective Factors Framework into work with families
	 Increase family understanding of Protective Factors Framework and support families in strengthening their Protective Factors
	Integrate current research into professional practice
	 Assess the needs of the parents, child, and family and match to appropriate level of prevention, early intervention, or treatment as well as appropriate programming or approach
	 Promotion and marketing of programming and initiatives
	 Meet the learning needs of a variety of learning styles and ages of learners.
	Possess group process and facilitation skills
	 Utilize verbal and non-verbal communication and listening skills for effective facilitation and relationship building
	Tailor content to audience and to individual learners
	Utilize a variety of educational methodologies and facilitation strategies
	Build trusting relationships with families
	Engage families to build leadership capacity
	Adapt programming to respond to interests, culture, language needs, special needs, or challenges of participants
	Skills for conflict resolution among participants
	Ability to foster interaction and inclusion

Content Area 7: Family Support and Parenting Education: Principles, Research, Methods, and Approaches

Attitude	
	Positive view of parent education and support
	Commitment to high quality programming
	Commitment to attendance and completion of programming
	Persistence in recruiting and maintaining connection with families
	Sensitivity to needs and feelings of families
	Preference for interactive involvement of parents or families in programming
	Support family driven goal setting, enrichment, and experiences for child development

Content Area 8: Professional Practice and Self-care

Knowledge	
CORE COMPETENCIES	SUB-COMPETENCIES
8.1 PROFESSIONAL PRACTICE	Professional boundaries and limitations
	 Appropriate use of technology
	o Confidentiality
	Professional ethics and legal issues
	Awareness of limits and scope of professional practice
	 Process of referral of parents to other professionals and for other services
8.2 PROFESSIONAL DEVELOPMENT	Current issues and trends in the field
	Participate in professional organizations and advocacy groups
8.3 SELF-CARE	Principles of reflective practice
	Understanding the parallel process
	Understanding secondary/vicarious trauma
	Knowledge of strategies and resources for physical, mental, and behavioral health needs
	Stress management
	Planning for personal safety on the job

Content Area 8: Professional Practice and Self-care

Skills

Skills	
	 Use supervisor interaction and peer support to assist in professional role and self-care
	Advocate for one's own self-care needs
	Manage the parallel process
	Maintain professional boundaries while remaining responsive to parents and families
	Identify need for referral of parents to other professionals and for other services
	Interpersonal communication
